

DENT GOOGLE+ COMMUNITY: GUIDELINES

The DENT Google+ Community is a discussion forum for the Danish-English Network of literary Translators (DENT). Its purpose is to enable contact between DENT members, to allow members to seek and provide advice, to exchange information and to discuss professional matters.

1. The Community is 'closed' (not public) and accessible to DENT members only. Postings should not be reposted to other groups/lists nor published in blogs or other online or paper publications without permission.
2. Members may choose to receive notifications or opt out and read messages only on the website.
3. This Community is not the place for political or religious discussions. Please avoid them. Similarly personal communications should be conducted or continued outside the Community.
4. Do not post personal attacks on members of the Community or on other professional colleagues.
5. A discussion may be curtailed if it becomes contentious, libellous, offensive or excessively trivial.
6. Members who persistently ignore these guidelines may receive reminders via private email and ultimately be excluded from the Community. The decision of the moderator(s) is final.
7. Any complaints about conduct within the Community or comments about these guidelines can be sent to: DENTmoderator@gmail.com
